

## GGU Software International: Student licence fax reply form

If you would like to work with GGU software outside of the assignment / thesis framework, ask whether a GGU software campus licence (20-user network version) is available at your institute. If no campus licence is available, we will be pleased to make your institute an offer at short notice at substantially reduced prices.

### Student Licences

In order to send you a release code for a time-limited full version (testlicence) for use with an assignment/thesis, we require the following documentation::

- a written declaration that the software will only be used for an assignment/thesis..
- confirmation from your institute on the time frame and theme of your thesis.
- a certificate of matriculation from the university.

Current test licences can be found on the [www.ggu-software.com](http://www.ggu-software.com) website. We are at your disposal if you have any further questions.

Civilserve Braunschweig wish you all the best for your course of studies.

To  
Civilserve GmbH  
Am Hafen 22  
38112 Braunschweig

Please fax to: + 49 (0)531 – 2 15 98 51

I/we hereby declare,

- that GGU test licences will only be used in connections with my/our studies.
- That commercial projects/assignments will not be undertaken without the correct licensing.
- That all test licences will be deleted from all data storage media when the test period is complete.
